About Me

Data Architect, Application Developer and Project Manager in a wide variety of business applications ranging from client-server payroll to web based order entry, data warehouses and business intelligence.

Designer of solutions to improve productivity and efficiency.

Responsible for identifying business needs and determining solutions to business problems. Solutions often include a systems development component, process improvement or organizational change or strategic planning and policy development.

EXPERIENCE

IT Applications Project Manager

Rockwell Automation • Caracas (Venezuela) • April 2005 - December 2014

- ▶ Responsible for management and technical design, leadership and implementation for a variety of medium to large sized IT projects throughout Latin America. Some of these include:
- ▶ MFG/Pro server consolidation and clustering. IT responsible for consolidating 12 Latin American countries MFG/Pro instances in Milwaukee's (HQ) data center.
- ▶ Monterrey Payroll IT Leader for implementing META4 payroll outsourcing in Rockwell's new Monterrey plant.
- ▶ Design and development of a fully automated marketing event registration and tracking system.
- ▶ Web Access IT Leader for the development of new features and migration of the legacy web application used by Latin America distributors.
- ▶ Implement MFG/PRO electronic invoicing (paperless) for RA Chile subsidiary before legal timelines to improve billing process and comply with tax regulations.
- ▶ SAP r8 HCM Latin America legacy systems data conversion. Data developer (ETL) for migrating HR legacy systems to SAP HCM for all Latin America sites.
- ▶ Latin America Data Warehouse (LADW) Designer and technical lead for the new enhanced version using SQL Server, Java and Cognos technologies to provide sales and financial data to high management.
- ▶ Dispatch to Invoice (D2I) Project Manager of a Six Sigma project to reduce by 300% the time to invoice, improving Days Sales Outstanding (DSO) from more than 180 to 30-60 days.

IT Manager Andean Region

Rockwell Automation • December 1998 - April 2005

- ▶ Managed IT infrastructure, IT budget and business applications for the Andean region's (Venezuela, Colombia and Peru) RA subsidiaries.

IT Consultant

CapperSoft C.A. • November 1995 - November 1998

- ▶ Worked as an on-site IT consultant at Rockwell Automation, providing services for desktop support, LANs, database analyst, application developer among other tasks.

Techology Manager

CapperSoft C.A. • May 1992 - 1995

- ▶ As cofounder and director of the company, I offered my IT & IS experience and knowledge to provide external consulting to several small to mid sized companies mostly in the civil engineering (construction) industry. The company developed a Construction Project Control System that received an award from the Venezuela Engineering School as one of the top three Civil Engineering programs of the year (1993).
